FCC member,
Please reject the NAB's petition 04-160 . I live in Northern Wisconsin where it is very difficult to obtain information that can be received via satellite. I also have a 45 minute drive to work each day (one-way) and really appreciate and enjoy all the services that are provided by having satellite radio available from my vehicle.

I am not alone - there are so many other remote areas in this country that I'm sure are benefitting from this service. Since we live in a free country I feel it is very important that if I'm willing to pay for a service like satellite radio I should be able to receive it.

Thank you for your time,
Brenda S. Timken
